

## Migrations To and From EAGLE Libraries, Schematics & Board Designs

LogicSwap Solutions, Your Single Source for EDA Migrations, offers Migration services and support for CadSofts' – Eagle Design Suite®.

Using LogicSwap to migrate to Eagle, ensures that Parts Libraries, Schematics and PC Board Designs are handled with total accuracy to maintain the standards of the originating EDA CAD system.

Migrating from Eagle to other industry leading EDA vendor solutions is now easier than ever when it comes to maintaining design integrity of prototype and legacy designs to higher end Enterprise Solutions.
